

CECSC 2015

2nd International Conference on Communication and Education in Knowledge Society

5-7 November 2015
Timișoara, Romania

CECSC's 2nd edition will take place in the lovely Romanian city of Timișoara, whose character and history will enhance interaction among participants, as well as provide an enjoyable setting for the academic event.

The conference aims to gather academics, professionals, and students to discuss the challenges and innovations that communication and education is undergoing in the rapidly-changing 21st century. Our purpose is to address specific questions within the five main frames of the conference: communication, education, international relations, political sciences, and applied philosophy. The main frames are broad in order to encourage participants to bring their own specialized researches within these frames and to consequently break down each frame in specific sub-subjects based on the participants' interests.

Publication

The conference papers will be published by Trivent Publishing and sent for indexing in SCOPUS and ISI Thomson Reuters.

For more information on publication and fees, see the conference website or contact the conference secretariat.
