

# GAP XVI : Geometry and Physics

## “Lie theory and applications to mathematical physics”

~*Séminaire itinérant* , May 29-June 2, 2018, Timisoara, Romania~

A series of conferences and summer schools held annually since 2003 in various countries around the world.

### Mini-course speakers

- Anton Alekseev (Geneva)
- Philip Boalch (Orsay)
- Eckhard Meinrenken (Toronto)

### Organizers

- Anton Alekseev (Geneva)
- Victor Ambruş (Timisoara)
- Cosmin Crucean (Timisoara)
- Mathieu Stiénon (Penn State)
- Cornelia Vizman (Timisoara)
- Yannick Voglaire (Luxembourg)
- Ping Xu (Penn State)

### Invited speakers

- Ruggero Bandiera (Roma)
- Daniel Beltita (Bucharest)
- William Riley Casper (Louisiana)
- Ion Cotaescu (Timisoara)
- Benjamin Enriquez (Strasbourg)
- Vladimir Fock (Strasbourg)
- Stefan Haller (Vienna)
- Bas Janssens (Delft)
- Madeleine Jotz (Göttingen)
- Jiang-Hua Lu (Hong Kong)
- Gwenael Massuyeau (Dijon)
- Nikita Nikolaev (Geneva)
- Pavol Severa (Geneva)
- Reyer Sjamaar (Cornell)
- Alice Barbara Tumpach (Lille 1)

### GAP XVI is supported by

- The **Department of Mathematics** at **Penn State University**
- The **West University of Timișoara**
- The grant **MODFLAT** of the **European Research Council** (ERC)
- The **National Science Foundation** (NSF)

The conference will take place in the A32 amphitheater at West University of Timisoara

Conference program can be found at <http://www.geometryandphysics.org/gapxvi/>
