

UVT Green Week 2021 – Report

Executive Summary

The "**UVT Green Week - Circular Economy in a European Context**" was organised by the West University of Timișoara between 31 May and 4 June 2021, as part of the **EU Green Week 2021 - Partner events**.

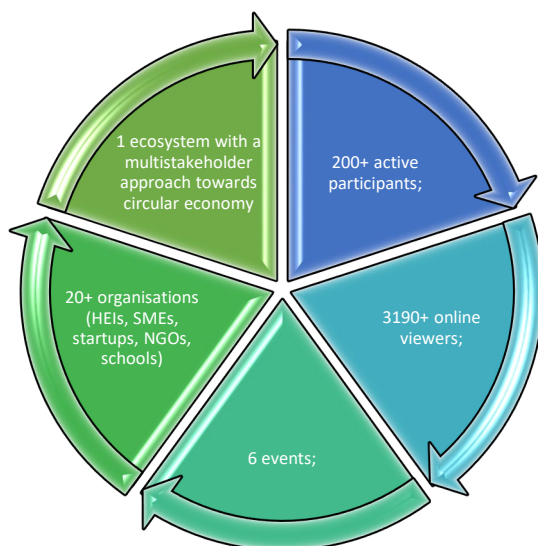

The fourth edition of the „Săptămâna Verde la UVT” series focus on circular economy, considering that the West University of Timișoara has developed a working group dedicated to circular economy, in co-creation with regional and national partners, as well as with partners from European University Alliances.

The event was also part of the „**Green UVT 2021**” project, financed by the Romanian Education Ministry via the Special Situations Fund (FSS), in the larger context of a concrete set of actions taken by the West University of Timișoara towards environmental protection, climate action and sustainable development.

The week-long event showcased the various academic, private and public approaches to circular economy, while emphasizing the role of individual action and the need for coordinated approaches towards a veritable circular economy action plan translated into practice.

Briefly, the "**UVT Green Week - Circular Economy in a European Context**" awareness-raising event can be translated into figures as seen herein:

- 200+ active participants;
- 3190+ online viewers;
- 6 events;
- 20+ organisations (HEIs, SMEs, startups, NGOs, schools) creating a diverse ecosystem with a multistakeholder approach towards circular economy.
